

I am Donna Nash and am a member of Columbia Shag Club.

Member of Columbia Shag Club 25 years. With this club I have been on setup committee, door committee, membership committee, bar committee, trash and Clean up! You name it, I have always jumped in and did whatever needed to be done! I was Secretary of the Columbia Shag Club 2014 and 2015! Current President of the CSC May 2018 and May 2019 completed my first full year!

I have taken this club from less than 40 members to almost 100 since May of 2018! Our annual Invitational was down to 45-50 people each year and our other meetings and parties were 35-45 people per party! My first Invitational we had 147 (2018) and this year August 2019 we had 180! We have more money in our account than we have had in many years! I am a hard worker!

When I was told that the CSC were going to fold and merge with another Shag Club in the area, I said absolutely not!!! I said if we get down to 1 member we would never give up our status as the first Shag Club, would not give up our charter, or our name!!! I said We can do this!! When I was elected I decided it was time to let go of whatever happened in the past with the other clubs in our area and get down to business! The 2 other presidents and I met and at this time we have helped each other in building our clubs, our relationships, our support because we are all in this together! We travel to other clubs together during the week! We are all ACSC clubs! We have even reached out to clubs within 70-80 miles to attend parties and enjoy the dancing! I have a lot more that I want to do to continue to build clubs, support clubs, help struggling clubs to thrive and grow! It can be done!!!

I feel that I'm energetic, I love people and love for people to have a good time!! Currently I am a member of Columbia Shag Club, Palmetto Shag Club, Orangeburg Shag Club, Sumter and CLASS in Camden. My goal is to try to visit each club in NC and SC in the next 2 years of my role as President!

I am a current insurance broker (20years) and I have to communicate and build relationships with the companies that I do employees benefits! I have also worked as an agent for Colonial Life for 20 years! I love hearing all the updates of the employees children and grandchildren from year to year! The insurance business is a very hard business because it is imperative that you build trusting relationships! I have a Bachelor Degree in Business and a minor in Business Management!

I will be a great asset to the SOS Board!!! Please consider my application! I am beyond excited about the possibilities!
